Notes:

1. Oars are customer supplied. Due to the high cost of shipping oars, we suggest purchasing new oars and having them delivered to Boulder, Colorado to be instrumented. Oar manufacturers get better shipping rates due to their shipping volumes.
2. Oar instrumentation includes charging cables and one quad USB charger per four oars.
3. Shipping charges will be determined at time of shipment and will be added to invoice.
4. Contact smartOar® to discuss your needs. We will be happy to answer any questions and provide you with a quotation. Email through contact form is fastest.
